Hazards Identified	Harm that could occur	Is this hazard significant?	Eliminate? Isolate? Minimise?	Controls - Actions to Reduce Risk

	Chemical Poisoning through contact with toxic pesticides via dermal, oral, inhalation ingestion or through cuts & abrasions.	Potential for serious long term respiratory/digestive damage through inhalation or absorption of chemicals. Skin irritations.	yes	Isolate Minimise	All persons handling & applying chemicals must have Growsafe accreditation Refer to SOP on general chemical handling which outlines safe chemical handling procedures MSDS on file for all chemicals used on vineyard All persons must use specified PPE when handling and applying chemicals
	Poisoning injury resulting in use of chemical mixing units	Chemical poisoning causing nausea, dizziness, vomiting/diarrhea, fatigue, loss of balance, sweating, convulsions respiratory failure, coma or death.	yes	Isolate Minimise	Refer to SOP which outlines the safe operating procedures applicable to the chemical mixing unit Use PPE specified in SOP
	Gunshot injuries due to the accidental shooting while using firearms. Burn injuries due to improper storage of ammunition.	Gunshot injuries resulting in damage to limbs, vital organs and head. Burns to skin, hair and organs.	yes	Isolate Minimise	All persons using firearms must have a current firearms licence. All persons using firearms on the vineyard must be fully inducted in the safe use of firearms. Refer to SOP which outlines the safe operating procedures associated with firearms use.
	General injuries due to accidental shooting while bird shooting Burn injuries due to improper storage of ammunition	Shot gun injuries resulting in damage to limbs, vital organs and head. Burns to skin, hair and organs.	yes	Isolate Minimise	All persons using shot guns on the vineyard must have a current gun licence. Refer to SOP which outlines the safe operating procedures applicable to the use of shot guns for bird control on the vineyard
	Noise induced hearing loss from firing of gas gun in close proximity	Potential for long-term hearing loss.	yes	Isolate Minimise	All persons working on vineyard while gas guns in operation are notified of the hazards associated with their operation Refer to SOP which outlines the safe operating procedures applicable to the use of gas guns on the vineyard

Hazards Identified	Harm that could occur	Is this hazard significant?	Eliminate? Isolate? Minimise?	Controls - Actions to Reduce Risk	
General injuries due to accidental shooting while using record bird scaring gun. Noise induced hearing loss from using record bird scaring gun. Burn injuries due to improper use of record bird scaring gun.	Burn injuries caused by projectile. Potential for long term hearing loss. General injuries due to projectile impacting body.	yes	Isolate Minimise	Refer to SOP which outlines safe use of the record bird scaring gun. All persons must use PPE as specified in SOP Bird scaring gun will be operated in accordance with manufacturers recommendations at all times.	
Burn injuries resulting from use of gas cutter	Burns to skin, hair and organs.	yes	Isolate Minimise	Refer to SOP which outlines the safe operating procedures applicable to the gas cutting equipment All persons must use PPE as specified in SOP	
Burn or electrocution injuries resulting from use of MIG welder	Burns to skin, hair and organs causing physical burn injuries and possibly death.	yes	Isolate Minimise	Refer to SOP which outlines the safe operating procedures applicable to the MIG welder (to be completed) All persons must use PPE as specified in SOP	
Burn or electrocution injuries resulting from use of portable electric welder	Burns to skin, hair and organs causing physical burn injuries and possibly death.	yes	Isolate Minimise	Refer to SOP which outlines the safe operating procedures applicable to the portable welder (to be completed) All persons must use PPE as specified in SOP	
General injuries resulting from use of bench grinder	Cuts, abrasions and general tissue or muscle damage.	yes	Minimise	Refer to SOP which outlines the safe operating procedures applicable to the bench grinder All persons must use PPE as specified in SOP	
General injuries resulting from use of hand held grinder	Cuts, abrasions and general tissue or muscle damage.	no	Minimise	Refer to SOP which outlines the safe operating procedures applicable to the hand held grinder All persons must use PPE as specified in SOP
