# TE MUNA ESTATE

## *Martinborough*

*“What Te Muna offers, that separates us from many other New Zealand Sauvignon Blanc or Pinot Noir producers, is an aromatic purity and elevated perfume that is distinct to this small sub-region”*

**Ben Tombs, Chief Winemaker**

**Latitude** - 41.2°

**Altitude** - 93m above sea level

**Seasonal Rainfall** - 439mm on average

**Purchased & First Planted** - 1999

**Total Area Planted** - 250ha

**Varietals Planted** - Sauvignon Blanc, Pinot Noir,  
Riesling, Pinot Gris

*Nestled in a secluded valley, our Craggy Range Te Muna estate is a hidden gem of the wine world.*

*Established in 1999, Te Muna is seven kilometres outside the Martinborough township and 50 metres higher in elevation. The soils have some of the oldest surviving loess deposits in New Zealand, creating the perfect terroir to produce wines of exceptional character.*

*The river terraces carved by the local Huangarua river have deposited a diverse mix of rocks and minerals, contributing to the complexity of our wines. Our vineyard is the only one in Martinborough to span the three terraces.*

*Pinot Noir thrives on the older, top terraces, with soil consisting of fine silty loam overlaying gravely river stones and ancient volcanic ash. Sauvignon Blanc flourishes on the lower terraces made up of young, gravely, free-draining soils.*

# Pinot Noir

gls / btl / 1.5l

## Te Muna Road Vineyard Martinborough

*Our Pinot Noir is a story of refined complexity and depth; a wine that embodies the unique terroir of Martinborough.*

*The unique soil composition, temperature climate, high winds, and large diurnal temperature swings create the perfect terroir to produce Pinot Noir.*

## GIMBLETT GRAVELS

### *Hawke's Bay*

*"I have grown on the Gravels for over twenty years, and our Craggy Range Prestige Syrah blocks are the best Syrah blocks I have ever worked with"*

**Jonathan Hamlet, National Vineyards Manager**

**Latitude** - 39.5°

**Altitude** - 30m above sea level

**Seasonal Rainfall** - 390mm on average

**Purchased & First Planted** - 1998

**Total Area Planted** - 85ha

**Varietals Planted** - Syrah, Chardonnay, Merlot, Cabernet Sauvignon, Cabernet Franc, Petit Verdot

*A little over 150 years ago, the Ngaruroro river flowed over the land where our vineyards now sit.*

*Nestled away from the coast and protected from cooling sea breezes, the Gimblett Gravels benefits from a warm and consistent microclimate. The soils are composed of greywacke stones, interspersed with layers of silt and sand. The stony soil structure is both a challenge and a gift resulting in wines of exceptional character and intensity.*

*Gimblett Gravels is heavily influenced by the gravelly, free-draining soils for which the region is named, the stones absorb and radiate heat, creating a slightly warmer environment than other areas of Hawke's Bay. This promotes good ripening and flavour development. The grapes retain fresh, aromatic characters while still producing full-bodied wines with a high level of complexity and robust structure.*

# Syrah

## Gimblett Gravels Vineyard Hawke's Bay

*Our Syrah is synonymous with the Gimblett Gravels. The unique terroir allows Syrah to reach an optimal level of ripeness, while the cool nights allow the fruit to maintain its aromatic intensity and vibrant flavour.*

*Over half the vines are from original plantings. Today, we are privileged to inherit and continue this legacy, crafting Syrah that embodies the unique essence of the Gimblett Gravels and the meticulous quality that defines Craggy Range.*
